World History Resource Library

The World History Center works to acquire textbooks on world history from publishers. These textbooks range from survey style textbooks to textbooks devoted to a particular issue/country within a global context. The intended collection of textbooks is meant to be a resource for instructors at the middle school, high school, and college levels. It is the intent of the World History Center to encourage research and teaching of world history by providing instructors with curriculum materials. Currently, the Center has collected over two hundred items from publishers including texts and supplementary resources, such as workbooks, lesson guides, and electronic resources.

The World History Resource Library can be found at 3900 Posvar Hall at the University of Pittsburgh. To gain access to the library or for general inquiries, please call Ms. Katie Jones at 412-624-3073 or e-mail at joneskh@pitt.edu.

Below is the list of acquired texts and additional resources as of February 2011.
